Aisi 304
Stainless Steel

MAGIDO FLS parts washers are built for tough repair and maintenance tasks. Their front-load design makes loading parts easy and features automatic cleaning with optimized spray nozzles. Made from durable 304 stainless steel, standard features include a direct turntable drive, a dual-height spray manifold, a vertical stainless steel pump, a tank heater with a digital thermostat, a programmable pump timer, an auto water fill with fluid level sensor, a safety switch, a tank drain, and a removable chip basket.
